

## CT CONNECT

### CT CONNECT™ >>>

#### CONNECTING COUNCILS TO DATA & SERVICES

CT Management Group introduces the next STEP for supporting data and asset management for Regional and Rural Councils with our comprehensive GIS & Data Support Service – CT Connect.

#### FLEXIBLE SOLUTIONS

Every Council is unique and has different requirements. CT Management Group can provide a range of support services including:

- Asset data capture.
- Asset data validation.

- Ensuring Data integrity within the GIS and AM systems.
- Validate and update GIS linkages to other corporate systems (ie AM, finance and property datasets).
- Development of additional spatial displays (GIS Layers) of data to underpin strategic decisions.

The approach we take can be summarised as follows:

Stage 1 – Review Council data status and report on gaps/improvements.

Stage 2 – Develop and format the datasets as required.

Stage 3 – Manage existing Council onsite GIS systems by providing part time onsite/offsite support or via a Hosted GIS solution (CT Connect).

CT Connect is a flexible cloud based platform and has the following features:

- A cloud based service hosted by a reputable and reliable vendor.
- Software vendor independent.
- CT Connect can provide GIS, asset and condition data in various formats to suit the most popular vendor financial and asset management systems.
- Secure access by a Council via 'web' interface to access various data/services.
- Provides Councils with a menu of services/tools that can be purchased as and if required.
- Access to a library/knowledge base, benchmarking data etc.
- Promotes shared services for Councils.

To find out more about CT Connect, please contact us on 1300 500 932.

### CT CONNECT™ >>>

Connecting Councils to Data and Services.

CT Management Group specialises in providing independent financial advisory and leadership services to organisations.

- Investigations.
- Executive Coaching.
- Workforce & Succession Planning.
- Procurement.

### Professional Placements

- Senior Executive Recruitment.
- Professional Placements.
- CEO and Director Performance Plans and Appraisals.

## CT MANAGEMENT GROUP PRODUCTS

### Long Term Financial Plan

Designed to improve financial planning methodologies and highlight the importance of key strategies, our Long Term Financial Plan (LTFP) supports Council's financial sustainability.

### Service Cost Evaluation Model (SCEM)

SCEM enables Council to identify its range of services, review costs, service priorities and then define affordable levels of service. In combination with Council's LTFP, the financial sustainability can be assessed.

### Strategic Resource Plan (SRP)

A key medium term financial plan summarising resource forecasts over at least a four year term and forming part of the Council Plan (Vic only).

### Capital Works Evaluator

Designed to evaluate competing eligible capital works projects, the Capital Works Evaluator (CWE) assists Council in managing and prioritising its capital works program. In combination with the LTFP, Council's capital program, including whole of life cost, is indexed. Indexation rates are user defined.

### Financial Ratios Benchmarking

The financial ratio package provides benchmarks of Council's financial performance across a wide range of financial ratios.

### CT Connect

CT Connect is a flexible cloud based platform and has the following features:

- A cloud based service hosted by a reputable and reliable vendor.
- Software vendor independent.
- CT Connect can provide GIS, asset and condition data in various formats to suit the most popular vendor financial and asset management systems.
